This is your "blast from the past" email beckoning you back to VB/I-70 for just one more working group meeting! You thought this all was behind you? Nonsense! The residential soils cleanup is now complete and we are having a final working group meeting that is intended to be more of a celebration for everyone who helped make this happen successfully. You will see many of the same faces that were at the table when you were involved, and so many in the group would be really pleased to see you and thank you for your participation in the cleanup effort. Details are attached below. Note that there will be food and mingling from 9:00-9:30, before the actual meeting begins...

Please consider attending,

-jc
